

RESUME

Accumulation, Thinking, Precipitation, Progress

Name : 王海波\Harbor

Age : 25

Cellphone number : 15737935170

E-mail : 15737935170@163.com

Current city : Shanghai

Native place : Anyang , Henan

Education background

Graduate school: Henan University of Science and Technology (2012.9-2016.7)

Major: Industry Engineering

Major courses: Basic Industrial Engineering , Systems Engineering , Database Technology and Applications, Management, Supply Chain Management

Professional skills

- Good at Word, Excel, PPT, Visio, UG, AutoCAD
- CET4/CET6, I am good at reading and writing, there is no problem in daily communication.
- I am good at IE skills, such as TIME STUDY , LINE BALANCE , PDCA, FOOL-PROOF, LEAN PRODUCTION, 5W1H and so on.
- Advanced in small products injection molding process and familiar with dust-free workshop.
- Good communication skills, familiar with the process of importing small equipment.

Working experience

TP-LINK (injection molding, 2016.7-2018.4) IE Engineer

Job duties

- Efficiency promotion: recognize the waste and deal with it
- Design frock clamp: design frock clamp for new product and better automation
- Exception handling: production problem, quality problem and other problem occur in workshop
- Data maintenance: production data analysis and broadcasting
- Technical team management (14人): performance appraisal, team building, skill training
- **BOE (backlight production 2018.5-2019.4) IE Engineer /NPI Engineer**

Job duties

- Efficiency promotion: import proper tools in production
- FPY promotion: analysis the reason of defective products, propose solutions
- New product introduction: time measurement, create SOP and the list of CTQ, process design, layout design, process equipment introduction

Main achievement

TP-LINK

- The efficiency rise to 108 ¥ / H from 75 ¥/ H
- Complete the following projects: SMED、Standardization of actions and work time
- Basic IE Team Establishment and 2 Basic IE Technicians Training

BOE 京东方

- Complete the following projects:
BIM, the return rate dropped by 15 %, and the customer final test's bad rate dropped from 2 % to 1.5 %
Import whole machine production process
Complete the workshop layout planning for large-size TV project, including aging workshop, logistics route, line layout, process flow, investment list budget

Self-evaluation&interests

- High executive power
- Strong sense of responsibility
- Thinking systematically
- Good leaning capacity
- Analysis and thinking ability
- Thinking deeply
- ◆ Basketball and swimming
